THE SHORT VERSION

I build polished interfaces and dependable backend systems for useful web products, from accessibility tools and fintech to ecommerce and business websites.

TOOLS I WORK WITH

React · Next.js · TypeScript · Tailwind CSS · Python · FastAPI · D1 / R2 · REST APIs

SELECTED PROJECTS

OPEN A PROJECT FROM THE PORTFOLIO FOR MORE

Deafly

Accessibility-focused classroom platform with live captions and Nigerian Sign Language support.

SIWES Placement Recommender

Matches students with industrial-training companies using student profiles and preferences.

SuperTed Innovators

Business website for solar, smart-home, CCTV, and access-control services.

SwingsXStore

Ecommerce and business-management platform.

Swings CRM

CRM tools for customers, leads, calls, and support tickets.

UtiliPay

Community payments and utility-management platform.

Portfolio overview. Dates, individual contributions, and credentials are omitted where details are unconfirmed.

Thoughtful interfaces. Dependable systems. A little personality in every detail.
