FULL STACK DEVELOPER

Gmail: ayinachisonweze@gmail.com | Phone: 08143128523 | GitHub: github.com/Ayinachiso | LinkedIn: linkedin.com/in/ayinachisonweze

PROFESSIONAL EXPERIENCE

1. **CEO: PQ_Solutions**
   - Duration: 2023 - Present
   - Founded and lead the PQ pipelining community, fostering collaboration and resource sharing among members.
2. **CCODel intern**
   - Duration: March-July 2026
   - Word processing, editing and formatting study materials for CCODel learners.
   - Contributed to automating a heavily manual task using Python and Flask, cutting delivery time by almost 50%.
3. **Team Lead: 2023/2024 Convocation Planning Committee**
   - Duration: 2023 - 2024
   - Led the planning and organization of the university's convocation events, ensuring smooth execution and coordination among teams.
4. **Financial Secretary: National Association for Computer Science Students (NACOS) Covenant University**
   - Duration: 2024/2025
   - Managed financial records and transactions for the association.
5. **PRO (Public Relations Officer): Gbemisola Adenubi Community Development Association (GARACDA)**
   - Duration: 2024 - Present
   - Responsible for community engagement and communication strategies.
6. **Software Developer: PPinterest Solutions**
   - Duration: July 2024 - December 2024
   - Worked on developing software solutions for various client needs.

PROJECTS

1. **SwingsX Mobile Store App**
   - Contributed to a team of developers as a Frontend Developer and assisted with backend development.
   - Successfully built and launched the app, which is now available on the Play Store.
2. **Deaf.ly**
   - A classroom AI-enhanced tool that helps to bridge the disability gap for deaf and hard of hearing individuals by providing live sign language transcriptions using an avatar.
3. **Gbemisola Adenubi Community Development Association Website**
   - Building a community website with PayPal integration for payment processing.
   - Implementing other relevant APIs to enhance functionality.
   - The website will be hosted for community use (still in progress)
4. **Utilipay**
   - A utility payments platform for gated estate residents in Nigeria, enabling residents to track and easily pay utility bills digitally while receiving instant receipts, and providing administrators with analysis and payment insights.
5. **PQ Repository Website**
   - Developed a website serving as a repository for past questions (PQ) specifically for 300-level Computer Science students.
   - Hosted on Vercel, providing valuable resources for peers and easy access. The link to the site is also on my github.
